WORK EXPERIENCE

Seeroo IT Solutions, Kochi

Software Developer Intern   January 2025 - April 2025

- **Leading a team of 4 developers** to build the **entire backend** of an AI-powered **face recognition mobile application named PhotoFish AI**.
- Developed and optimized the backend using **Django, Django REST Framework, and PostgreSQL** for efficient data handling and API management.
- Implemented **CI/CD pipelines, Docker, and AWS (RDS, S3, EC2)** for seamless deployment, data storage, and scalability.
- Integrated **Machine Learning models** for advanced facial recognition capabilities

N-OMS Consultancy Pvt Limited, Pune

Software Developer Intern   April 2024 - September 2024

- Developed a full-scale web application for the **Pune Keraleeya Samaj (PKS)** organization from scratch using **React, TypeScript, Tailwind CSS, Framer Motion, and AOS** to create an engaging and responsive UI.
- Contributed to the **Multi-Tenant Office Management System**, designing and developing a **Calendar Module** with **add, view, and delete event functionalities**.
- Integrated **REST APIs**, implemented **Ant Design** for UI components, and optimized data fetching using **TanStack Query** for improved performance and reactivity.
